# Summer Soccer Training

**U11 Boy's team -** I will be running a set of training sessions throughout the Summer period, June & July. These sessions are purely optional and will not affect your place on the team in any way.

The training sessions will take place on Tuesday and Thursday afternoons between 4:00 to 5.30 at various locations, some days at a local park, some at the beach and some at an indoor training facility.

The main emphasis of the training is simply to keep you in shape, keep your ball control up to standard and of course have fun!

The various locations etc will be emailed to you a week in advance and posted on my personal website:
